

**VETGOLD CASE REPORT:**

**Case # 2**

**Patient:** Name: Bailey                      **Breed:** Male, German Short haired pointer

**Condition:**        Old laceration, non healing, lick granuloma

**Symptoms:**        Constant licking, lesion scabbing over & opening up again

**Treatment:**

Treatment with VETGOLD twice daily for 2 weeks

**Date:**

Nov 7

Nov 14

Nov 21 - The lesion is epithelializing & is much softer subcutaneously

**Results & Recommendations:**

Lesion was fully healed after 21 days

The dog stopped licking almost immediately.

Owners very satisfied
